HISTORY

SOME WERE BORN LEGENDS.
SOME WERE MOULDED.
WE, AT JSC, ARE COMMITTED TO
BRING OUT THE BEST IN YOU...

The first Football Academy in the Kingdom of Saudi Arabia, was kicked off in the year 2010, with the aim of providing professional football coaching facility to the young generation among the vast Indian expatriate community settled in the football crazy city of Jeddah, the Kingdom of Saudi Arabia.

The province of Jeddah is the adopted home for hundreds of thousands of Indian expatriates from all over India.

The plight of the Indian boys who are forced to be confined within the four walls of their class rooms and homes, lazily spending their leisure time on digital gadgets or surfing through social media, has triggered desire in

sports loving expatriates to do something creative for them so that the boys not only come out of their monotonous lives, but help them become mentally and physically fitter and stronger individuals

Backed by hard work and dedication of the team JSC, from a very simple beginning at a mud ground in the Old Airport Area, it shifted to another ground near Haifa Mall, Palestine Street, within one year of it's inception and subsequently to a state-of-the art Dunk Ground, behind IKEA showroom, Sitteen Street.

VISION

By the year 2025 JSC visualizes itself to be one of the premier football academies not confined only to Jeddah, but to other parts of KSA. Yearly exchange program for trainees with European academies, accreditation with national and state level associations, leagalising the academy, own ground etc. are the other dream projects JSC has. JSC also wish to sponsor 5 of its best trainees to Doha, Qatar to watch live the 2022 FIFA football world cup to be held there. Financial self sufficiency is the most important aspect to realize the set goals and Insha Allah JSC will live up to every body's expectation.

ITALIAN SOCCER MANAGEMENT

ISM offers the opportunity to players coming from all over the world to experience the Italian Soccer Training with Italian licensed coaches and get a chance to be scouted by an European Professional Club. ISM is partner with several European Professional Clubs in the research, detection and valorisation of new young talents.

TEAM TOURS are soccer development initiatives oriented towards the identification and improvement of boys and girls between 10 and 20 years of age.

The Team Tour offers a high group training level reached with technical and tactical drills along with small or full sided games. The individual qualities are developed through daily technical training sessions and then refined through targeted tactical training sessions.

The main goal is personal development of the player in its basic technical skills and in soccer fundamentals. ISM with professional coaches

of "OUR CLUB PRO-PARTNERS" will motivate each player, putting them in real game situations, endorsing their abilities.

The time spent at the Team Tour is a personal growth opportunity but also of socialization and a technical and tactical enrichment for the young player.

We can provide all the necessary support to soccer players worldwide. We can assist players in all relations with the club and sponsors during the signing of a new contract or during the renegotiation of the contract.
